January 14, 2021

Dear Family Members,

The Los Angeles County Department of Public Health has included household family members who care for people with developmental disabilities who also have the following medical conditions in Phase 1A, Tier 2 of COVID Vaccination Distribution, which includes:

- Cerebral Palsy
- Down Syndrome
- Epilepsy
- Specialized Health Care Needs (including dependence on ventilators, oxygen, or other technology)

Note that this list is not exhaustive and there may be other high-risk medical conditions that may qualify.

If you are a family member of an individual who is served by North Los Angeles County Regional Center with one of the identified medical conditions, you may be eligible for vaccination as a Health Care Worker according to the State of California's vaccination plan.

If you are eligible, please see the instructions to sign up:

- An appointment must be made at one of LA County's Points of Dispensing through the county's website. To schedule an appointment for vaccination, please go to [http://publichealth.lacounty.gov/acd/ncorona2019/vaccine/HCWSign up/](http://publichealth.lacounty.gov/acd/ncorona2019/vaccine/HCWSignup/)
- If your preferred location is not accepting appointments, please consider alternate locations that may have other options for availability.

The following items will be required at the time of the appointment:

1. A form from your Service Coordinator that verifies the qualifying diagnosis (this may be printed or displayed digitally on a phone, tablet, etc.)
2. Photo ID

The eligibility as a family member can be ascertained by documentation from your Service Coordinator, which will provide verification of the qualifying condition of the member of their household who has an intellectual or developmental disability. Please know, that you may also choose to utilize your existing medical records if you have those readily available.
