Performance Report for North Los Angeles County Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at North Los Angeles County Regional Center (NLACRC) we served about 19,200 consumers. The charts on page 2 tell you about the consumers we serve. You’ll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At NLACRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, as of December 2013, we exceeded the statewide average in all performance measures.

We invite you to attend our annual public meetings where you can learn more about the performance contract. The meetings are held at our Van Nuys and Lancaster offices, usually in late August or early September. Please visit our web site in early August for information about these meetings.

We hope this report helps you learn more about NLACRC. If you have any questions or comments, please contact us!

What about other performance areas?
In the future, we will measure how well we are doing in other areas, including:

- Increasing the number of consumers who work,
- Getting better pay for consumers who work,
- Making sure consumers get medical and dental services, and
- Meeting Intake/Assessment and IFSP timelines for children 0–3.
