Spring 2016

Performance Report for North Los Angeles County Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at North Los Angeles County Regional Center (NLACRC) we served about 21,600 consumers. The charts on page 2 tell you about the consumers we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At NLACRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we exceeded the statewide average in all performance measures.

We hope this report helps you learn more about NLACRC. If you have any questions or comments, please contact us!
