Spring 2017

Performance Report for North Los Angeles County Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at North Los Angeles County Regional Center (NLACRC) we served about 23,000 consumers. The charts on page 2 tell you about the consumers we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At NLACRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we did well in the Regional Center Goals on page 2 and in meeting the DDS standards on page 3. But, we still need to improve in a few measures as indicated by the National Core Indicator (NCI) data including:

Does the Independent Program Plan (IPP) include all services and supports your family needs? (page 5)

Overall, are you satisfied with the services and supports your family member currently receives? (page 6)

We hope this report helps you learn more about NLACRC. If you have any questions or comments, please contact us!

Notes
Many different percentages can be derived from this data. The best available denominator based on this year's survey sample methodology and its limitations was chosen.
Each regional center should take care to pay attention to how well the sampling race/ethnicity breakouts compare to each RC's total population served race/ethnicity composition
For more details on the National Core Indicator survey, contact the regional center.
