<u>Family Resource Center:</u> Family Resource Center provides services and support for families and infants and toddlers, under the age of three years, that have a developmental delay, disability, or condition that places them at risk of a disability. Services include, as specified in Government Code 95024(d)(2), parent-to-parent support, information dissemination, public awareness, and family-professional collaboration activities; and per Government Code 95001(a)94), family-to-family support to strengthen families' ability to participate in service planning.

<u>Self Determination Program Participant Support:</u> The SDP allows for regional center consumers and their families more freedom, control, and responsibility in choosing services, supports, and providers to help meet the objectives in their individual program plans. The SDP Participant Support is for regional centers, in collaboration with the local volunteer advisory committees, to assist selected participants in their transition to SDP.

Service Access & Equity (Disparities within Regional Center System): Allocation for one position for each regional center.

Home and Community-Based Services ("HCBS") Compliance Funding: The HCBS Rules require that programs funded through Medicaid (called Medi-Cal in California) provide individuals with disabilities full access to the benefits of community living and offer services and supports in settings that are integrated in the community. This could include opportunities to seek employment in competitive and integrated settings, control personal resources, and engage in the community to the same degree as individuals who do not receive regional center services. The HCBS rules focus on the nature and quality of the individuals' experience and not just the setting where the services are delivered.
